Design & Engineering
Laboratory Conference
2018

Friday, February 2 : **Novotel Hyderabad Airport**

“ Coming together is beginning...keeping together is progress...working together is success ”

At DELabCon all of us are living examples of this quote – beginning with DELabCon 2016, keeping together at DELabCon 2017 and looking forward to work together at forthcoming DELabCon 2018. DELabCon (Design & Engineering Laboratory Conference) is a dynamic business confluence which is held annually to bring together industry experts across India, to exchange & share their experiences on varied aspects of Laboratory Design and Engineering.

It provides an interdisciplinary forum to present and discuss the most recent trends, innovations, concerns and practical challenges encountered while building high performance R&D labs.

Hosted by SciencebyDesign, DELabCon 2018 invites all laboratory design & engineering professionals and scientists who want to build a Research and Development laboratory to avail this opportunity of learning, collaborating and networking.
