

International Freezer Challenge & European Award

October 2017 - April 2018

International & European Awards for the most energy-efficient and engaged labs

Participate in an international competition between labs to learn and apply best practices in cold storage management.

Benefit by reducing your Energy Consumption, Costs and Environmental Impact
Improve your Sample Management & apply Good Management Practices, realize Space Savings, even Freezer Retirements or Upgrades.

Learn about Temperature Tuning and apply Cutting-Edge Practices

When: 10/2017 - 04/2018 (Registration deadline: 1st of April 2018)
Who: Any laboratory in the world can participate!
How: Register & download the Score Sheet under: <http://www.freezerchallenge.org/>

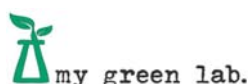

Get active and earn points for each action in 4 focus areas.

Award: Labs & institutes out of four sectors with the most points will get International Awards.
The best three european labs will get an EGNATON-Award

Questions: Please contact info@mygreenlab.org.
If you have specific questions regarding the European Award, please contact:
